

## **Assignment 6A Deliverables**

### **Jenny Xin**

#### **Figma Low-Fidelity Sketch:**

<https://www.figma.com/proto/1qTCoczso8EckobTYU3Y0a/PUI?node-id=207%3A686&viewport=491%2C405%2C0.46927082538604736&scaling=contain>

For the low-fidelity sketch, I added more items in the cart and adjusted the size and spacing of each item container. I also added a promo code functionality to the order summary section.

#### **Figma High-Fidelity Prototype:**

<https://www.figma.com/proto/1qTCoczso8EckobTYU3Y0a/PUI?node-id=173%3A3&viewport=204%2C474%2C0.09181215614080429&scaling=contain>

I made a high-fidelity version of the item containers and promo code. I also added more interactions to the prototype to demonstrate how deleting multiple items would work (how it affects the count count, the subtotal and total price).
